DETAILED ACTION

Acknowledgements

Claims 27-54 are pending.

This office action is being issued in response to the BPAI decision issued on 12/23/2011.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 27-36 are rejected under 35 U.S.C. §101 because, in order to comply with §101, a method must recite that the method comprises more than just an abstract idea. Based upon consideration of all the relevant factors with respect to the claim as a whole, Claims 27-36 are held to claim an abstract idea, and are therefore rejected as ineligible subject matter under 35 U.S.C §101. The rationale for this finding is explained below:

- No recitation of machine or transformation, either express or inherent.

Allowable Subject Matter

Claims 27-54 are allowable over the prior art.

Conclusion

This application is in condition for allowance except for the following formal matters:

- §101 Rejection.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
